Marsupial Omnivore Diet

A reformulated balanced diet designed for omnivorous marsupials

- Detailed nutritional requirements of marsupials is not well characterised. This diet was designed using the best information we could obtain from the literature and our experience in feeding trials.
- This diet is designed as a supplementary feed to grazing / browsing large marsupials. The cubes must be fed along with a good quality roughage such as hay or grazing.
- Diet ingredients are carefully selected to minimise the risk of soft palate damage.

Calculated data uses information from typical raw material composition. It could be expected that individual batches of diet will vary from this figure. **Diet post treatment by irradiation or auto clave could change these parameters.** We are happy to provide full calculated nutritional information for all of our products, however we would like to emphasise that these diets have been specifically designed for manufacture by Specialty Feeds.
