

## Diet SF08-025

## Gluten Free Rat and Mouse: Reformulated

A cereal grain based diet formulated for laboratory rats and mice. This diet satisfies the nutritional requirements for growth of rats and mice.

- This diet replaces SF07-036. Choline content of the diet has been increased by inclusion of Choline chloride.
- This diet is based on a formulation supplied by the Victorian Institute of Animal Health.
- Some modifications have been made to suit locally available raw materials

Calculated data uses information from typical raw material composition. It could be expected that individual batches of diet will vary from this figure. **Diet post treatment by irradiation or auto clave could change these parameters.** We are happy to provide full calculated nutritional information for all of our products, however we would like to emphasise that these diets have been specifically designed for manufacture by Specialty Feeds.
